# THE WORLD OF LOAD ENGINEERING THAT POWERS MEGA STRUCTURES COMES TOGETHER IN ISTANBUL, 7-9 APRIL!

LES-EXPO, the world's first specialised trade show in load engineering services, will take place at Istanbul Expo Center from **7-9 April 2026**. Organised by the Load Engineering Association and KFA Fairs, the event brings together industry-leading firms from Europe, Asia, and Africa to strengthen global partnerships.

## WHAT ARE LOAD ENGINEERING SERVICES?

Load engineering is a multidisciplinary field that ensures the safe lifting and transportation of heavy, long, wide, or tall loads. Whether by land, air, sea, rail, or underwater, it involves critical steps such as risk assessment, ground evaluation, equipment selection, and operational planning to ensure zero-error handling. As technology advances and projects become more complex, the diversity of loads grows, making load engineering one of the most strategic and risk-sensitive fields of the future.

OUR LOAD

**HEAVY**

OUR GOALS

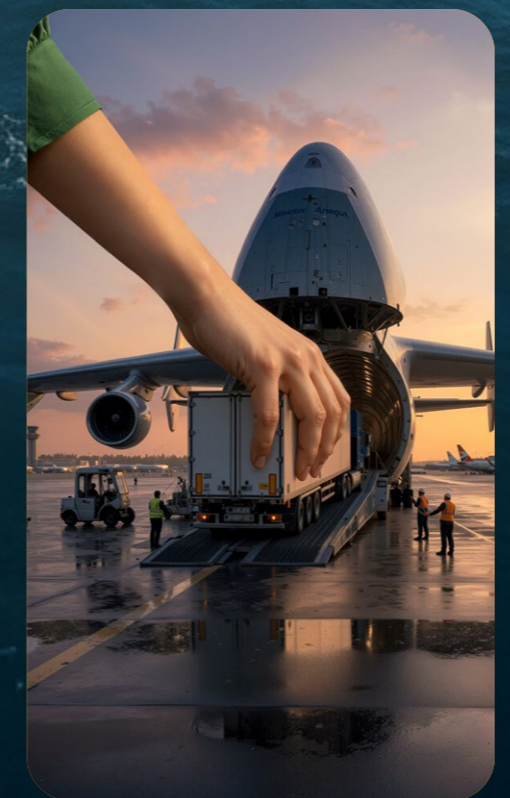

**HIGH**

OUR PATH

**LONG**

OUR VISION

**WIDE**

Companies providing lifting and transport services that require load engineering, spanning construction, energy, maritime, heavy industry, and infrastructure, contribute \$15 billion to the Turkish economy, excluding manufacturers, vendors, and suppliers.

At LES-EXPO, held in both indoor and outdoor spaces of the Istanbul Expo Center, partners, engineers, equipment providers, service companies, and suppliers will present the latest industry-specific technologies.

**Secure your place at the meeting that will shape the future of the industry!**

# JOIN LES-EXPO, CARRY YOUR COMPANY TO GLOBAL MARKETS!

LES-EXPO is more than a trade fair; it is a business platform aligned with your growth goals. Here, you do not just purchase floor space; you gain direct access to new markets and decision-makers.

Share the stage with industry leaders from Europe, Asia, and Africa, expand your competitive reach, and increase your business opportunities. Reserve your place now to become a key player in the load engineering world.

## WHY SHOULD YOU EXHIBIT AT LES-EXPO?

### Why should I exhibit at LES-EXPO?

LES-EXPO is the first and only specialised fair for load engineering services in Türkiye and the surrounding region. It offers a unique opportunity to showcase your latest products to an international audience and connect directly with investors and decision-makers. Be at the centre of training, seminars, and collaboration opportunities. Boost your visibility and invest in the future of your company and market.

### What's the advantage of exhibiting at LES-EXPO?

By exhibiting at LES-EXPO, you gain more than just a stand; you gain new business connections, international visibility, and opportunities for growth. This platform helps you build solid partnerships and generate commercial returns.

### How many visitors do you expect?

Approximately 15,000 professional visitors are expected. These include decision-makers at companies in need of your products and services.

### What is the typical visitor profile?

LES-EXPO will host buyers, project leaders, business owners, and representatives from private and public organisations across 20+ sectors in the load engineering ecosystem. All are high-potential, collaboration-oriented professionals with purchasing authority.

### Was this trade show organised before?

No. LES-EXPO is the first and only specialised trade show dedicated to load engineering services. It will be the first global gathering of all stakeholders in the field.

LES-EXPO  
EXHIBITION SPACE RATE  
(INDOOR & OUTDOOR):  
200 EURO / m<sup>2</sup> + VAT

**%10 DISCOUNT  
FOR YMB MEMBERS**

### A4 LIFTING AND TRANSPORT COMPANIES REQUIRING LOAD ENGINEERING

- Lifting and Transport Service Companies Requiring Load Engineering
- Load Engineering Service Providers
- Steel Wire Rope Manufacturers and Vendors
- Tyre Retreading Companies
- Battery Manufacturers and Vendors

### A5 FREIGHT FORWARDING AND LOGISTICS SERVICE PROVIDERS

- Freight Forwarding Companies
- Land-Rail-Air-Sea Transportation Service Companies
- Maritime Service Companies
- Aviation Service Companies
- Rail Service Companies

### D1 ERP, FINANCE, LEASING, INSURANCE AND TECHNOLOGY FIRMS

- Finance and Leasing Companies
- Insurance Companies
- Engineering Simulators
- ERP Software Companies
- Logistics Software Companies
- 3D Scanning Companies
- VR Companies

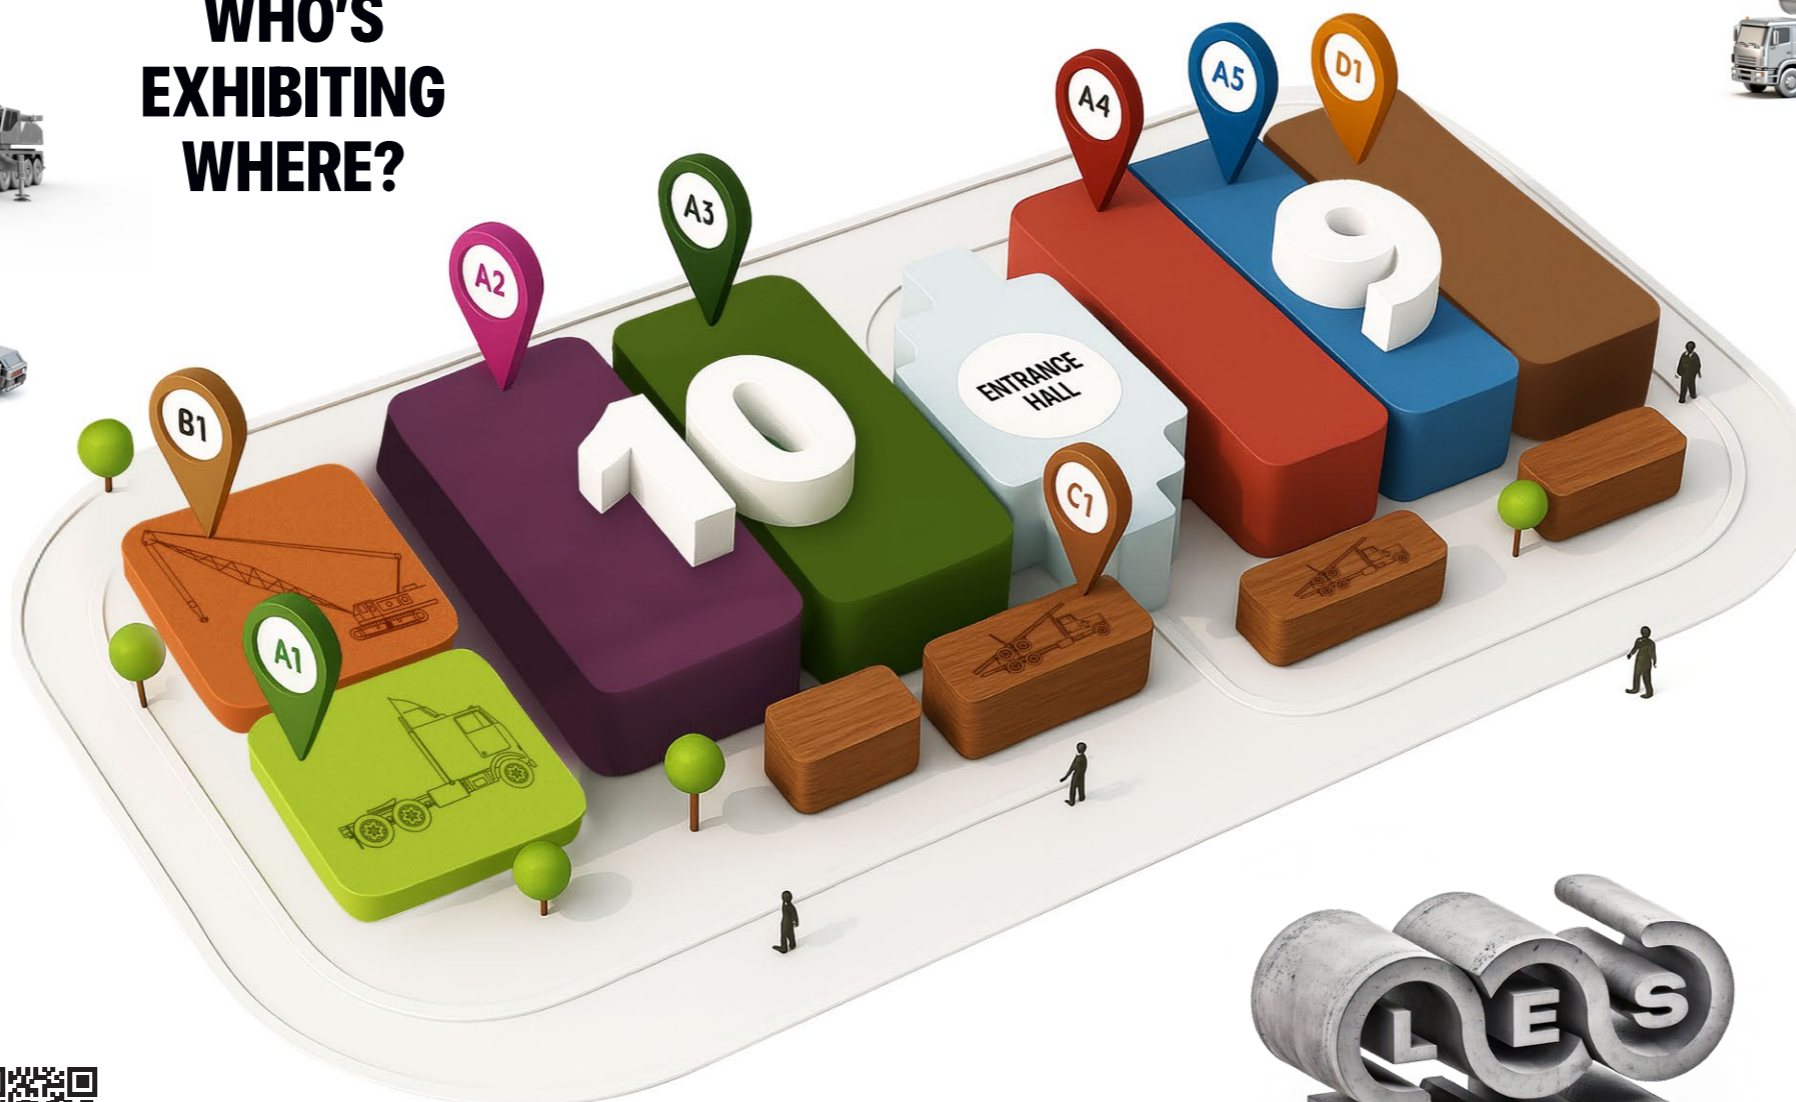

### C1 TRUCK TRACTOR MANUFACTURERS AND VENDORS

- Tractor Manufacturers and Vendors

## WHO'S EXHIBITING WHERE?

### B1 MANUFACTURERS AND VENDORS OF HEAVY LIFTING EQUIPMENT

- Crane Manufacturers and Vendors

### A1 MODULAR TRAILER / HYDRAULIC PLATFORM SPMT MANUFACTURERS

- Trailer Manufacturers and Vendors

### A2 WIND ENERGY AND INDUSTRIAL R&D COMPANIES

- Wind Turbine Manufacturers
- Component Manufacturers / Vendors / Operators
- Equipment Manufacturers and Vendors
- Renewable Energy Companies
- Industry-Related Service Providers
- Public Institutions
- NGOs

### A3 MARITIME TRANSPORTATION, PORT AND TERMINAL OPERATORS

- Port Operators
- Ship Brokerage Companies
- Industrial Project Companies
- Barge Companies
- Ro-Ro Companies

## A PLATFORM THAT BRINGS ALL TOGETHER!

LES-EXPO brings together all stakeholders of the load engineering ecosystem, welcoming a wide range of professional visitors, including:

### Companies Managing Large-Scale Housing, Motorway, Bridge, Metro, Dam, and Airport Projects

→ EPC (Engineering, Procurement, Construction) contractors

### Renewable and Conventional Energy Companies

→ Firms involved in thermal, hydro, nuclear, and wind energy projects

→ Energy transmission line contractors

### Oil, Gas and Petrochemical Investors and Operators

→ Companies engaged in refinery, LNG terminal, and pipeline projects

### Wind Turbine Project Investors and Installation Firms

### Mining and Mineral Processing Facilities

→ Mining companies handling heavy machinery and parts transportation

### Shipbuilding and Shipyard Sector

→ Shipyards needing heavy block transport and assembly  
→ Offshore platform manufacturers

### Defence and Aerospace Industry Companies

→ Firms planning the transport and assembly of large-volume equipment

### Industrial Facility Constructors

→ Companies investing in cement, steel, paper, chemical, textile, and automotive factories

### Port Operators, Free Zones and Industrial Zone Investors

## LES-EXPO: THE GATEWAY TO NEW BUSINESS OPPORTUNITIES IN LOAD ENGINEERING

Secure your place on this unparalleled platform where you can connect directly with industry decision-makers, investors, and project leaders. Raise brand awareness and engage with real business opportunities.

## FROM PRODUCTS TO SERVICES, PLANNING TO SAFETY: ALL EXPERTS IN THE LOAD ENGINEERING ECOSYSTEM UNDER ONE ROOF!

LES-EXPO brings together decision-makers from a wide range of specialisations, including load lifting and transport, engineering, logistics, digital transformation, and infrastructure investment.

- Product and service providers
- Project, logistics, and supply chain managers
- Investment planning specialists and engineering firms
- Load engineering operations managers
- Customs, logistics, and transport consultants
- Academics, researchers, and trade organisation representatives

### Who can I connect with directly at the fair?

LES-EXPO puts you face-to-face with high-purchasing-power professionals who have real needs and the authority to make direct purchasing decisions.

### Which sectors will be represented?

LES-EXPO gathers manufacturers, suppliers, service providers, and professionals from sectors such as energy, construction, maritime, and infrastructure where load engineering is essential.

### Will the fair open new markets to me?

LES-EXPO gives you direct access to an expansive commercial network across Europe, Asia, and Africa. Every visitor could be a gateway beyond your current boundaries.

### What other opportunities does the fair offer?

LES-EXPO is not only a showcase for products -it's also a unique opportunity to become a supplier for major projects. Visitors include investors, project managers, and representatives from both public and private sectors.

### What are the visitors' needs?

LES-EXPO visitors are professionals in search of specialised lifting, transport, and installation solutions.
